"I felt at home the very first day I moved to Valley View Retirement Community. I Love being able to eat meals with others and not having to cook. I can participate in any or all of the planned activities, or I can go to my apartment and read, do handwork, watch television, or just enjoy music. I love my home at Valley View, and I wish everyone could have the opportunity to feel so secure, independent, and happy."

“I highly recommend Valley View. My mother is doing so good since she has been here. Her blood sugar is now at a normal level with her medication. She is getting the care she needs and deserves. The staff are all so wonderful and friendly. They really do all care about the residents, and it shows. Mom loves the food. She even went to the salon there and loved it. If you have a loved one that needs assisted living look no further this is the place!!!!” – Beverly
